The Stretchorse Is Coming to the Isle's First Tee.

The Stretchorse is an ergonomically designed stretching station, engineered to facilitate improved golf performance and health through increased flexibility. It will be installed adjacent to the first tee, allowing golfers the opportunity to use it prior to teeing off.

The Benefits of Stretching in Golf

- Improved range of motion and control
- Reduce muscle and joint tension patterns
- Improve circulation in tight and over used and fatigued muscles
- Reduce chronic muscle and joint aches and pains
- Improve posture
- Promote a general feeling of relaxation
